Testimonials

"A couple of the senior members of the FA who went to South Africa trip during FIFA World Cup 2010 mentioned the mobile seating system was used at the Moruleng Stadium in Rustenburg for the practice facility for England Football team. It's superb and a few of the players commented favorably on this."

- Mr. Paul Fletcher MBE
CEO, Burnley Football Club

"T-Box Mobile arena systems is the best solution for creating temporary spectator facilities. Being mobile the same can be transported from one place to the other. With these systems one need not create a permanent spectator facility in brick and mortar which is location specific and rather go for these systems. This shall help in organizing number of football and other sporting events at places on open grounds all across the Country. This will be a catalyst to develop sporting talent at grass root levels in an organized way."

Mr. Bhaichung Bhutia
Former Captain Indian Football Team

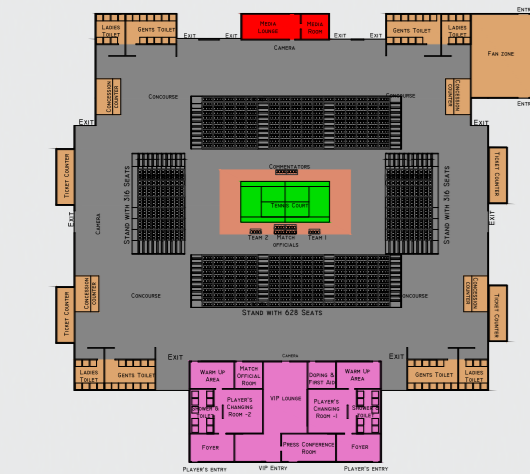

"Transstadia provide a fantastic structure called T-Box which can create a makeshift stadium within hours anywhere. I have personally used the product for my league & it is a good send to help promote sports at grass root level where infrastructure isn't easily available. T-Box has been the difference between success and failure of Super Fight League in unorganized city's in India"

Raj Kundra
Founder Chairman of SFL
